## **What is a Parish Plan?**

In 2000 the Government issued a Rural White Paper setting out their agenda for the countryside and encouraging local communities to take more control of the development of their own parish.

A Parish Plan is a way for local people to make known how they would like their community to develop in the future. It aims to help rural communities have a greater say in their own affairs. It helps local people set down their vision for the future of their parish. To be really effective it needs to represent the views of as many people as possible.

A Parish Plan can cover everything that is relevant to the people who live and work in the parish, from social housing to places for children to play. It should address the needs of the entire community, including local businesses, and will span a period of five years.

The Plan will be used to inform local government and other decision making bodies of the needs and concerns of the community, and will influence how changes in the community are made. The Plan can also be used to support applications for funding and to canvass support from local and national government. The Parish Council will use the Plan as a focus for their ongoing work.

## **What are the Benefits of a Parish producing a Parish Plan?**

- It can be used as an evidence base for grant applications to show community need for specific projects.
- It helps guide the Parish Council in their work. One of the discretionary requirements of 'Quality Status' is to have produced a Parish Plan. It shows that the Parish Council is listening to its community.
- It helps a community plan for the future, to ensure that community facilities can be maintained and updated to suit community needs.

## **How is a Parish Plan produced?**

A Parish Plan is produced by the local community in partnership with the Parish Council.

The first step is to hold a public meeting. The public meeting is an interactive forum enabling the local community to have their say on a variety of issues from health, community safety, to housing and transport. From this public meeting, a Steering Group of 8 – 12 people is formed with 2 or 3 representatives from the Parish Council on the group.

There are many consultation techniques available to involve the whole community, but the most commonly used one is a household questionnaire. Using the information gathered at the public meeting, and other consultation, the Steering Group create a questionnaire to be distributed to every household.

The results of all the consultation methods are then assembled to produce the draft Parish Plan that is presented to the Parish Council for endorsement. The final document is then distributed to every household, and the hard work of implementing the Plan begins!

### **Introduction to the Cowfold Parish Plan**

In November 2004 the Cowfold Parish Council invited all parish residents, local businesses and parish groups to attend a public meeting in the Cowfold Village Hall. Ruth Goldstone, Information and Action Plans Support Officer from Action in Rural Sussex, explained what a Parish Plan is and how it might benefit the community of Cowfold.

Some 100 members of the Cowfold community attended this meeting to hear about Parish Plans, how they are prepared and why it was important for Cowfold to become engaged in the process. There was then an opportunity for people to ask relevant questions and volunteer to become involved.

On 1<sup>st</sup> December 2004 those who volunteered met and the Cowfold Parish Action Plan Steering Group was formed. The Group then set about the task of producing the Cowfold Parish Plan.

As the Plan is intended to reflect the views and needs of the Parish it was felt that a questionnaire should be created and sent to every home in the Parish, covering the following key areas:

- Local housing
- Movement and transport
- Community safety
- Facilities and services for younger persons
- Facilities and services for older persons
- Leisure and cultural activities
- Good health
- Lifelong learning
- Helping business to succeed
- Protecting our world

These broad headings were felt to cover the areas of concern for the Parish and match up with Council funding. This may assist us in accessing funds, at a later stage.

Questionnaires were distributed to every household in the parish of Cowfold at the beginning of September 2005. A total of 780 questionnaires were delivered and parishioners were given until 25<sup>th</sup> September 2005 to complete and return the questionnaires.

In addition, a number of the questionnaires were returned at the open coffee morning held at the Village Hall on the 17<sup>th</sup> September 2005, where pictures drawn by the St Peter's School children were displayed. These pictures depicted the things the children thought would improve Cowfold and the facilities they would like to have. The coffee morning involved the local community and was supported by Cowfold WI who supplied teas and coffees.

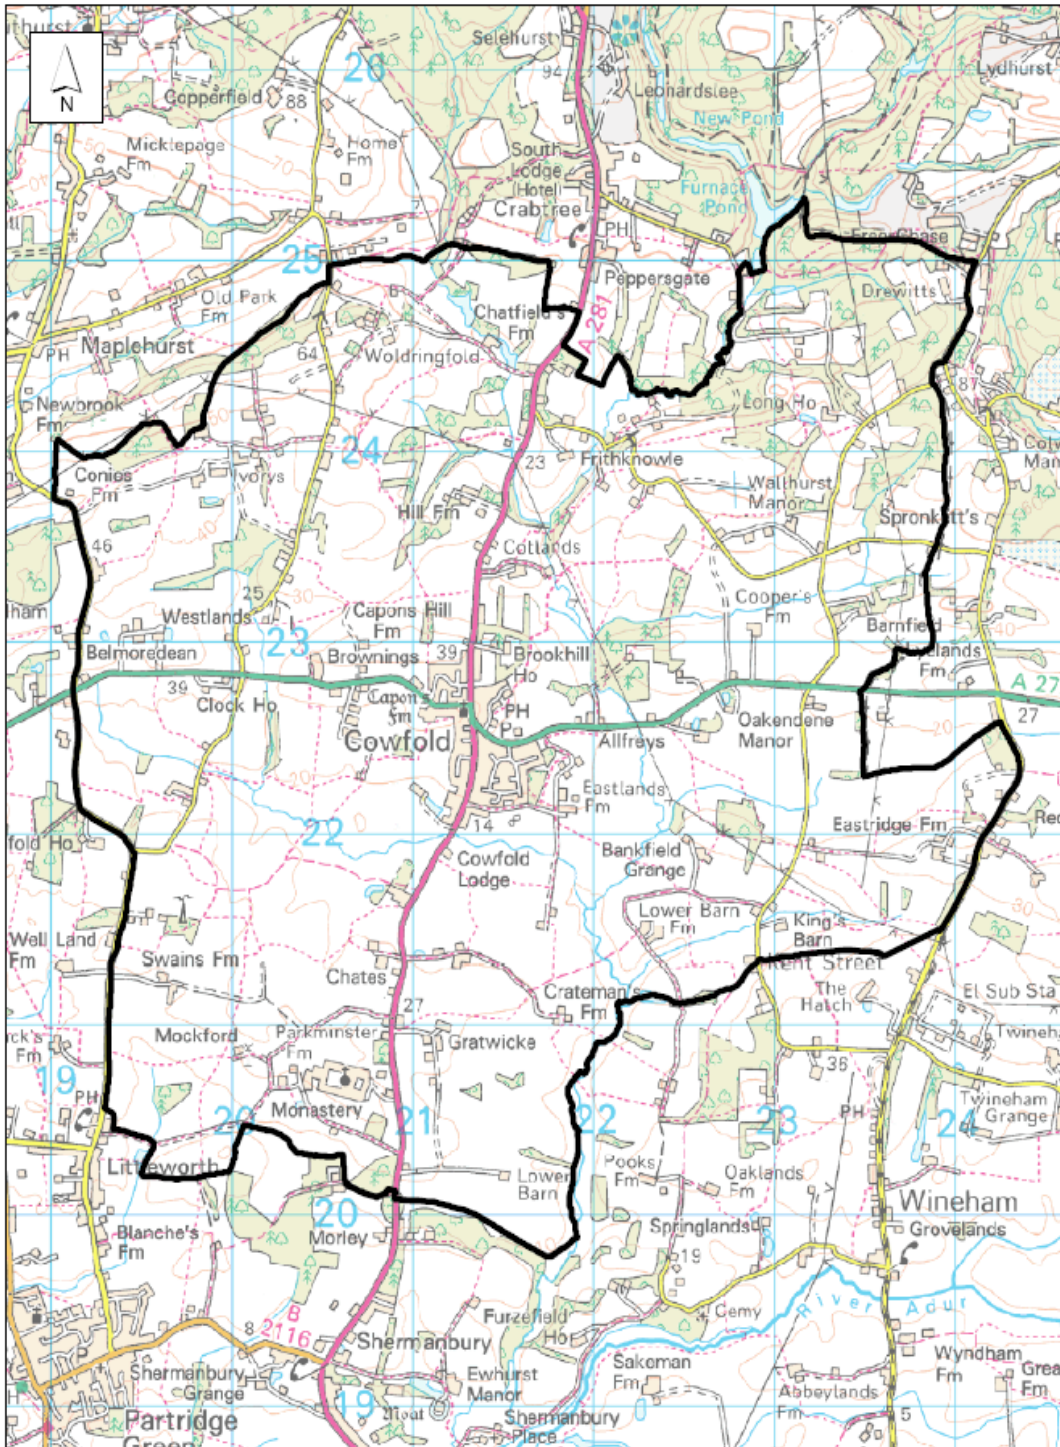

181 questionnaires were returned giving a response rate of 23.2%. All the data from these questionnaires was summarised by an independent body, Orchid Data Services, the cost of which was met by the District Council. A number of people included their contact details in their completed questionnaires and were invited to become further involved. Good publicity for the Cowfold Parish Plan was achieved through the parish website, parish magazine and local press.

The Steering Group kick-started the process after receiving the questionnaire results by inviting all those respondents who said they would like to be more involved to attend the next Steering Group meeting. The enlarged Steering Group worked on the action plans, resulting in this document. This Parish Plan was endorsed by Cowfold Parish Council on 10 April 2006.

## A Brief History of the Parish of Cowfold

There is no documentary evidence of Cowfold prior to the 13<sup>th</sup> Century. The oldest building is St Peter's Church, built in the 13<sup>th</sup> Century, at the centre of the parish. The parish was made up of a number of farmsteads. An early map dated 4<sup>th</sup> June 1725 shows Brownings, Capons, Eastlands, Wallhurst, Homelands and Oakendene. All of which are still here today.

There was a bowling green west of the Church in 1635 (now the Bowling Green Garden near the school). Cowfold Cricket Team played at Oakendene from 1721 until 1815. The Cricket Club, Stool Ball Club (founded 1890), and Football Club were all active during the 1900's. There was also a Rifle Club with the range behind what is now the scout hut. This was moved in the 1940's.

The Railway line opened in 1861 with the nearest station at West Grinstead. During the 19<sup>th</sup> and early 20<sup>th</sup> Century there was a horse drawn omnibus service from Cowfold to the station operated by a Mr Hale based at Potters Green near the school. The line closed in 1966.

St Hugh's Charterhouse was founded in 1873 and built between 1876 and 1883. It is the only Carthusian monastery in post reformation England.

In more recent times development of Cowfold took advantage of the main drainage sewer works which were built in the mid 1890's. Until 1930's all water was drawn from wells. Mains water came to Cowfold in 1936, electricity coming at about the same time winning the race with the gas suppliers! Up until then oil lamps and candles were used.

Prior to 1867 the village had a small public reading room in Church Path. The Village Hall was built in 1896 commissioned by Mr F D Godman, the naturalist from South Lodge, Lower Beeding. The first function was a tea in July 1897 to celebrate Queen Victoria's Diamond Jubilee.

In the 1930's there were two general stores, one of which was William Sprinks on the site of the Co-Op, two butchers, two bakers, two pubs, two petrol stations/garages. The Post Office was in Station Road at the site, which is now the hairdresser. There were also two sweet shops, a haberdasher, a shoe repairer, a saddler, two doctors and a blacksmith.

# The Cowfold Action Plan

## 1 Movement and Transport

### Volume of Traffic through Village

There were 24 comments about the heavy vehicles and high traffic volume through the village in the Cowfold Parish Questionnaire. 13 people said that the village needs a bypass.

A bypass is not likely in the future because:

- Cost of the scheme.
- Infill housing accompanying any bypass would not be popular with local residents, would add to the pressure on the already overloaded infrastructure as discussed in action 4.0 of this Parish Plan.

## 4 Local Housing

Residents of the Parish wish to keep any increase in Cowfold's housing stock to a minimum. Some felt that a by-pass would lead to infill development, as seen in other villages such as Ashington and Billingshurst. This is on the grounds that the Parish's infrastructure is already overloaded, including the mains water supply, sewerage processing, availability of

school places at the village school, excessive traffic load through the village, access on to the A272 and A281 from any new development, village parking provisions and destruction of the parish's character.

77% of respondents to the Cowfold Parish Questionnaire were against more housing development in the parish. When asked what facilities would be needed to support housing development:

- 38 people said larger/more schools
- 31 more shops
- 18 more public transport
- 8 better sewers
- 15 more off road parking
- 12 better water supply
- 11 another doctor

## What Next...?

Our small and dedicated team have worked very hard since December 2004 with the help of Beverley from Horsham District Council to bring our Parish Plan into being. We have all learned a great deal over that time and made some good friends along the way. We are very proud of the end result and hope that people in the village will appreciate our efforts. We could be entitled to sit back and congratulate ourselves on a job well done but that would defeat the purpose of the whole process.

We have produced an ACTION PLAN for the village. This means that each of the actions identified in the plan must be looked at, worked on and hopefully achieved. WE WILL NEED THE HELP OF THE VILLAGE TO DO THIS.

We are not going to tackle the whole plan at once. Even though we're dedicated we haven't yet become superheroes! We intend to focus on one part of the plan at a time. We hope to set up small groups of people interested in each issue as it comes up. SO WE NEED YOU TO VOLUNTEER. More than ever now we need people who care about the village and what happens in it to get in touch and to offer their services. You can do as much or as little as you are able to and you will have the satisfaction of knowing you have improved the community you live in.

The Parish Action Group will publicise each focus as it comes up in all the usual places. Look for updates on the Parish website [www.cowfold-pc.gov.uk](http://www.cowfold-pc.gov.uk), on parish notice boards and in local press. You can also get in touch with us now and tell us which issue you would like to work on when the time comes, or, even better get in touch now or come along to our next meeting and help us work on them all.
